**BOWL FOR  
FREE**

**PROGRAM**

### **Burlington Bowl's Exclusive League Member Rewards Program**

Here's how Burlington Bowl's **Bowl for FREE** program works.

Every person who is a member of a bowling league at Burlington Bowl will receive his or her exclusive **Burlington Bowl League Member Rewards Card**.

Everytime a league member bowls in his or her League, a credit equal to the Bowling Lineage of the weekly fee is added to the member's League Member Rewards card.

For example, if your weekly fee is \$20.00, and the bowling lineage portion of that fee is \$15.00, then \$15.00 is credited on your League Member Rewards card for that week. League Member Rewards credits accumulate each week that you bowl until you use them or until they expire.\*

League Member Rewards credits can be used anytime for non-league public bowling at Burlington Bowl (subject to terms and conditions).

**Players can even bring in family and friends** to bowl with them and pay for their bowling with the credits from their League Member Rewards card!

***For more information on  
Burlington Bowl's exclusive  
"Bowl for FREE" program, please ask  
a Customer Services staff member.***

\* All Bowl for FREE credits expire September 3, 2012.

## How are **HANDICAPS** Calculated?

**Anyone can join  
a League!**  
(i.e. no need to be an Expert Bowler)

Burlington Bowl often utilizes a Handicap scoring system for structured leagues. This helps level the playing field for bowlers who are not as capable of getting high scores to still compete with others. This is done by crediting lower-average bowlers with extra points for games that they bowl.

The amount of extra points that bowlers are credited (the "Handicap") is often expressed using two numbers - a **Percentage** and a **Base Score**. For instance, a League's handicap is often:

**"100% of 200"**.

What this means is that bowlers with a bowling average of less than **200** will be credited **100%** of the difference between their average and 200 as their handicap.

For instance, let's say your average is 160 (as determined by Burlington Bowl's record keeping). Then, one day during your weekly bowling session, you bowl a score of 140. Your actual recorded score for that game will be calculated as follows:

$$\begin{aligned} & 140 + \left( \begin{array}{l} \text{difference between 200} \\ \text{and your average of 160} \end{array} \right) \\ &= 140 + 40 \\ &= 180 \end{aligned}$$

So your actual recognized score for that game would be 180.

***For more information on  
how handicaps are calculated,  
please ask a Customer Services staff member.***

## **LEAGUE SIGN-UP FORM**

To sign up for a league, please complete the form below, and then deliver it to a Customer Services staff member.
